PART IV.,

"WATER CLAUSES CONSOLIDATION ACT, 1897."

WHEREAS "The British American Dredging Company, Limited," a company incorporated under the "Companies Act, 1897," and which had complied with the provisions of the "Power Companies' Relief Act, 1902," and was in the same position as if it had been specially incorporated as required by Part IV. of the "Water Clauses Consolidation Act, 1897," was granted a certificate dated the 26th day of June, 1903, approving the proposed undertaking of the Company and which was therein stated as follows:—

"The acquisition by purchase or under powers conferred by the 'Water Clauses Consolidation Act, 1897,' of two acres, more or less, of ground situated

on the south side of Pine Creek at the foot of Pine Creek Falls, in the Atlin Lake Mining Division of the Cassiar District, which forms part of the mining ground leased to the Pine Creek Power Company, Limited, for the purpose of hydraulic workings. This piece of land is intended to be acquired as a site for the erection thereon of a power-house and the necessary buildings in connection therewith for the generation and distribution by electrical methods, for the operation of a bucket dredge capable of treating three thousand cubic yards daily, for lighting and any other purposes for which such power may be used under the provisions of Part IV. of the 'Water Clauses Consolidation Act, 1897.' The generality of any words in this clause are not to be limited by any words in the same clause or any other part of this certificate.

"For the purpose of the proposed works the Company has acquired from H. W. E. Canavan a record bearing date the 7th day of April, 1900, of one thousand inches of water, to be diverted from Pine Creek above Pine Creek Falls, and which is to be returned to the stream at the Falls."

And in such certificate it was stated that the Company proposed to begin their undertaking by acquiring title to the said site in manner aforesaid, and by commencing the erection thereon of the said power-house; and that the amount of the capital which would be duly subscribed before the Company commenced the construction of its undertaking and works, or exercised any of the powers of the "Water Clauses Consolidation Act, 1897," Part IV., in that behalf was thereby fixed at the sum of \$25,000, being the whole of the capital stock of the Company, and that the difference between the said sum and the amount required to complete the undertaking and works should be raised by the issue and sale of debentures of the Company, such difference being estimated at the sum of \$75,000; and finally, that the time within which the said undertaking and works were to be commenced was fixed at sixty days from the date thereof, and the time within which all the proposed undertaking should be in operation was fixed at six months from the date thereof;

And whereas the Company subsequently found it inadvisable, by reason of the fact that in the judgment of hydraulic expert engineers the location was not a suitable one for the erection of a power-house, to acquire the site for its power-house referred to in and contemplated by the aforesaid certificate, and on advice that such was within its power determined to and did erect the power-house on ground occupied by it under lease for mining purposes, and known as the "Flora Hydraulic Bench Lease," and situate on the north side of Pine Creek and at the foot of Pine Creek Falls, and has applied for the purchase from the Crown of a certain piece of ground comprising 20 acres or thereabouts, including therein the site of the said power-house, which application has been allowed subject to survey, and said power-house and other the works authorised by the aforesaid certificate are now in operation and have been since a date prior to the date fixed for completion by such certificate;

And whereas the Company has applied to the Lieutenant-Governor in Council for an amendment of its certificate so as to show the correct situation of its power-house, and also the district within which the operations of the Company are to be exercised, and also enlarging its powers, and has filed with the Clerk of the Executive Council the documents required by section 85 of the said Act, and a plan of the said locality:

THIS IS TO CERTIFY that the undertaking of the Company as submitted has been approved and that the same is as follows:—

(a.) The acquisition by purchase of 20 acres, more or less, of land described as commencing at a post marked "B. A. D. Co.'s south-west corner," about 500 feet north-easterly from the south-west corner of the "Flora Hydraulic Bench Lease," on the north side of Pine Creek, in the Atlin Lake Mining Division, Cassiar District; thence east 20 chains; thence north 10 chains; thence west 20 chains; and thence south 10 chains to the point of commencement, and which land is now occupied by the Company, and upon part of which, as shown by a plan filed with the Clerk of the Executive Council, the Company has erected a power-house, with plant consisting of two large Stillwell Bierce Turbine wheels and two Westinghouse type of dynamos, with transformers raising to 22,000 volts:

(b.) The acquisition, in addition to a record No. 33 already held by the Company for 1,000 inches of water, which is diverted from Pine Creek above Pine

Creek Falls, and is returned to the stream below the Falls, of 5,000 additional miner's inches of water to be taken from Pine Creek at a point about 300 feet below what is known as the Old Junction Bridge across the said Creek, and to be diverted and conducted to the works of the Company by ditch, flume and pipe, and returned to Pine Creek at a point about one-half mile below Pine Creek Falls, and for a record of which the Company has made application:

(c.) The construction at or near the point of diversion of the aforesaid 5,000 inches of water of a reservoir for the purpose of settling the water before its entry into the raceway, and the enlargement of the Company's ditch and flume line:

(d.) The enlargement forthwith of the capacity of the power-house of the Company to utilise the water-power from Pine Creek and convert the same by means of water-wheels and generators into electricity, and such further enlargement from time to time of the said power-house or of the plant thereof as may be deemed necessary to increase the facilities of the Company in furnishing electrical power:

(e.) The operation of the Company's undertaking and works for the generation and distribution of power by electrical methods for mining, lighting and any other purposes whatsoever for which such power may be used under the provisions of Part IV. of the "Water Clauses Consolidation Act, 1897," within the district described as follows:—

Beginning at the intersection of Pearl Street with the shore line of Atlin Lake, in the Atlin Lake Mining Division of Cassiar District, Province of British Columbia; thence northward along the shores of the said Atlin Lake for a distance of  $6\frac{1}{2}$  miles, or thereabouts; thence on a straight line east 24 miles, more or less, crossing *en route* Surprise Lake; thence southward a distance of 23 miles, more or less, crossing Dixie Valley and the tributaries thereof; thence westward 20 miles, more or less, to the eastern shore of the said Atlin Lake; thence northward along the said lake to Pearl street, in Atlin, the place of beginning:

And this is further to certify that the Company propose to commence the works mentioned in paragraphs sub-sections (c) and (d) forthwith, and to complete the same twelve months from the date hereof, at an estimated cost of twenty-five thousand dollars, which sum shall be raised by the issue and sale of debentures of the Company before the said works are undertaken.

Dated this 27th day of July, 1905.

## PART IV.

"WATER CLAUSES CONSOLIDATION ACT,  
1897."

**WHEREAS** the West Kootenay Power & Light Company, Limited, has applied, under the provisions of the "Water Clauses Consolidation Act, 1897," for a certificate in pursuance of the provisions of Section 85, to enable the Company to proceed with its proposed undertaking of the construction of a hydro-electric power plant on the north side of the Kootenay River, at or near the Upper Bonnington Falls, for the purpose of developing a supply of power for power and light purposes:

And whereas the Company has filed with the Clerk of the Executive Council the documents required by Section 85 of the said Act, and plans showing the intended situation of the undertaking and works proposed by the Company:

This is to certify that the undertaking as submitted has been approved, and that the same is as follows:—

(1.) To construct the necessary works and buildings on a parcel of land known as Lot No. 1,396, West Kootenay District, as shewn by plans on file with the Clerk of the Executive Council, marked "A" and "B," respectively, for the development of power by the use of 162,000 miner's inches of water, which has been duly recorded, to be taken from the Kootenay River at a point about 1,000 feet above the Upper Bonnington Falls of the said River by means of a dam and canal, and to be returned immediately below the said Upper Falls.

The West Kootenay Power and Light Company, Limited, are hereby permitted to construct a dam commencing at a convenient point upon the site of their works now in the course of construction at the said Upper Bonnington Falls; thence up stream, following, as closely as conditions will permit, a rocky reef extending easterly from such Falls; thence to a suitable point at Lot No. 5,282, being the property of the City of Nelson; thence from a convenient point by a wooden dam, not exceeding in height the height of the wall to be erected by the City of Nelson from their proposed works on said Lot No. 5,282, to a junction with the wall proposed to be erected by the City of Nelson according to plans as now approved; all said works to be so constructed as to permit the free

passage to the works of the City of Nelson of 51,000 inches of water now recorded by them.

The City of Nelson having appeared, and having been heard on the application for this certificate, and, by their Counsel having consented that the West Kootenay Power and Light Company, Limited, may use, free of cost to them, such portions of the lands of the City of Nelson as are reasonably necessary for the construction of the dam hereby authorised; and further permitting the West Kootenay Power and Light Company, Limited, to blast and remove such rocks and obstructions as may be found to interfere with the free current to such Falls and from the same, with power to take and use all such lands as may be found necessary or advantageous for the construction of such works.

(2.) It is proposed to construct a power plant capable of producing 20,000 horse-power, also a canal to be formed in the river bed to carry the water to the forebay, which will be cut out of the solid rock and will lead up to a concrete dam thrown across the channel, and for the purpose of increasing the available head of water to remove from the river channel below the Falls some small islands, which at present obstruct the channel.

(3.) These works will have a capacity of 20,000 horse-power in the initial construction, the machinery to be added as the conditions require.

(4.) Through the concrete dam five (5) twelve (12) foot steel supply pipes, each pipe being capable of furnishing water to develop 4,000 horse-power, will be placed.

(5.) It is proposed to instal three (3) units at present. the water wheels in connection therewith to consist of three vertical type turbine wheels enclosed in steel penstocks and discharging into tail-race.

(6.) The generators will consist of 3 3-phase, 60-cycle, revolving field generators, giving a voltage of 1,100 volts at terminals of machines.

(7.) This current to be passed through step-up transformers which will deliver current to the transmission line at 60,000 volts, and will be transmitted to any part of the District of West Kootenay within a radius of fifty miles from the City of Rossland, to supply power for mining, smelting, lighting and industrial purposes.

(8.) The current will be transmitted over a maximum distance of about 90 miles of No. 0 B. & S. gauge hard-drawn copper cable to sub-stations at different points, where the voltage will be transformed down to voltages required for local distribution.

(9.) And this is further to certify that the Company propose to proceed forthwith with the construction of the hydro-electric plant at an estimated cost of the whole undertaking of \$900,000, of which \$100,000 shall be subscribed before the Power Company commences the construction of its undertaking. The time within which the said works shall be in operation is fixed at one year from the date hereof.

(10.) And this is further to certify that the Company shall retain, have, hold and may exercise such rights, powers, privileges and priorities as they now hold (as well as under this certificate) as may be requisite for the proper carrying out and completion of the undertaking aforesaid, and the certificate shall be considered as supplementary to, but not in derogation of, any such existing rights, powers, privileges or priorities. Nothing herein contained shall be taken or construed to interfere as between the different holders of records of water in the Kootenay River with their respective priorities.

Dated this 17th day of August, 1905.
